

LUXURY HOTELS BARRIÈRE GROUP

« Since its creation, the Lucien Barrière Group has chosen quality for customers who demand the best anywhere, any time, on all levels. We are pleased to continue this tradition by signing a partnership with Wifirst. »

Dominique Desseigne
CEO Groupe Lucien Barrière

An average of 27 500 users per month connect to the network and consume more than 30 400 Go of data monthly.

01. CHOICE OF WIFIRST

Fast internet access has become a basic need for guests staying in hotels. Understanding what was at stake, The Barrière Group selected Wifirst to provide its hotels with a high speed and flawless WiFi.

02. THE CHALLENGE MET

To provide an excellent WiFi signal and optimal coverage across the 14 hotels with rooms and suits averaging 50sqm.

It was essential to be flexible on the deployment schedule to minimise any inconvenience to the guests.

03. CONCRETE RESULTS

Wifirst services have been live since Oct. 2014, providing wireless and wired internet access to 1.659 rooms.

The robust infrastructure supports the high bandwidth demand and high number of participants attending large conferences hosted by the Group hotels.
